WORK EXPERIENCE

Intern Backend Developer | 2024

PT ORDO TEKNOLOGI KARYA

- Assisted in integrating backend APIs with frontend components
- Helped design basic Entity Relationship Diagrams (ERD) for database structure planning
- Supported the development and testing of RESTful APIs for mobile applications
- Participated in identifying and reporting bugs, and worked on simple fixes under supervision
- Collaborated with the development team in daily tasks and code reviews
- Gained hands-on experience with backend tools, frameworks, and version control systems

Freelance Web Developer | 2025

GliSentra Group

- Developed and maintained website backend features using PHP and MySQL
- Worked on database structure, data processing, and basic server-side logic
- Assisted with frontend tasks such as layout adjustments and content updates
- Fixed bugs and tested website functionality before deployment
- Communicated with clients to understand basic project needs

ACADEMIC HISTORY

Open University of Indonesia

Information Systems | 2025-Present

Currently an active student at Universitas Terbuka, pursuing distance learning with a focus on developing skills in information systems.

SMK Negeri 1 Kediri (Vocational High School)

Computer and Network Engineering | 2022-2025

During my studies, I actively participated in provincial-level IT competitions, including Network System Administrator and Artificial Intelligence categories. Although the TKJ major focuses on networking, I developed backend programming skills to build efficient and reliable applications and solutions. Additionally, I have knowledge of basic networking, hardware maintenance, and troubleshooting.
